

# Neutrino Theory Meeting - June 4 - Agenda

- What is the charge for NF08?
- There is “theory” in all the NF topical groups. How do we share the load and ensure coverage without too much redundancy?
- We are not planning any NF08 stand-alone meetings. We think we can help coordinate the theory component of workshops organized by subsets of NF topical groups.
- We think there should be a NF-TF liaison. This is very important for the neutrino theory community.
- Action Item: The July Town Hall Meeting has a “Neutrino Theory”-Flavor to it. We are happy to help.
